November 11, 2025

I am writing to express my interest in joining Tech Solutions Inc. as a Junior Programmer. I understand that there may not currently be an opening, but I am passionate about contributing my skills in programming, UI development, and project management to your team.

I am a BS Information Technology student at Filamer Christian University with hands-on experience in developing systems and working with teams on technical projects. I served as the Leader and Project Manager for a Restaurant Management System, where I handled UI/Front-end development, system management, and web development using the Django framework. This experience strengthened my technical abilities, leadership, and problem-solving skills.

I would be grateful for the opportunity to grow with Tech Solutions Inc. and work in an environment that values innovation, teamwork, and continuous learning. I am happy to provide details about my projects or meet for further discussion.

Thank you for considering my application.

Respectfully yours,

Erlyn B. Hermo
3rd Year Student
